WORLD WAKE UP NEWS REPORT

We bring you the afternoon news from Cowlairs Park.

Bad storms have been hitting Glasgow all week.

Reports are coming in of tornadoes hitting Cowlairs Park. Heavy rain and winds have left trees destroyed.

Rubbish was set on fire. People say they saw birds falling from the sky.

A deer was spotted in the forest at the top of the park.. Some people don't think they exist but now we have proof. Other animals have been taking shelter in the woods.

Local people have had enough of the mess and destruction.

The labyrinth used to have glass but now they have cleaned it and spray painted it.

And now for our main report today we ask, - Are children listened to ?

The children of St Teresa's have got together to bring about change.

They have formed the WORLD WAKE UP Movement to repair the damage to the environment.

Their actions have inspired people around the world.

We go across to the labyrinth to hear their reasons for coming together....

The clean up is taking too long.

We want power.

We want a say over how things are decided.

Make a better future now.

We want our rights listened to.

Young people are not heard enough.

People are not treated fairly.

People need to be kind to each other.

We believe in the right to fun and laughter.

Clean water.

No more plastic.

The right to play safely.

Look after the world.

Fly the flag !

Scene 4- DREAM (recorded gentle spacious music followed by song sung live by the children)
